Recommendation letter.

We, KIA Motors Rus, had the contract with «JARTEK» Construction Company in the end of November 2008 for the fit out works in the new KIA premises which are in the «Silver City» business centre.

The schedule of works was very short termed, as KIA had to move in no later than January 11th 2009. The situation was really complicated considering Christmas and New Year holidays.

Therefore, «JARTEK» showed itself as a well organized, quick acting and professional company. All the fit out activities were completed according to the schedule of works with the high quality level. It is also important that «JARTEK» made a number of additional works during the same time, which was over the main contract.

Another important issue is that «JARTEK» run properly the maintenance works during the warranty period, reacting quickly to all of our requests. It was also very nice of «JARTEK» to help us making many little improvements and interior works.

With this letter I highly recommend «JARTEK» LLC as a solid and reliable partner and professional contractor. If you have any further questions with regard to «JARTEK», please do not hesitate to call me.

Best regards,

Kim Hyun Joon

Coordinator Director A/S
